

EH-Li Series Cordless Electric Hoist

Lithium Battery Powered Chain Hoist

Introducing the all new ABS Lifting, Mini Lithium Battery Operated Electric Chain Hoist.

This convenient, go anywhere electric hoist comes supplied with 1x 24V Lithium Battery and charger. Spare batteries can be purchased separately.

An optional radio remote control is also available.

With a choice of capacities of 125kg, 250kg and 500kg, this all new cordless hoist is not only convenient for lifting in places where power is not available, but makes the perfect tool for many different trades, industries or even for your home workshop.

Lightweight construction (125kg and 250kg models weigh just 7,2kg and the 500kg model only 9kg) and compact design (length= 239mm, width= 130mm and closed height 280mm) makes handling the hoist a breeze. Simply attach the hoist to a suitable and safe lifting point and effortlessly lift the load, with a running time from up to 40 minutes from a full charge.

Lifting speed up to 2.5m/min (125kg), 2m/min (250kg) and 1m/min (500kg) models.

Optional Remote Control.
